DESCRIPTION

WRWTFWW Records presents the long anticipated official reissue of *Chrysalide* (1978), the sole album from French multi-instrumentalist and enigmatic genius **Michel Moulinié**. The krautrock/ambient/minimalism paragon is available as a limited-edition LP with one never-heard bonus track. It is sourced from the original reels and housed in a heavy 350gsm sleeve. Originally released in 1978 on Ange and **Jean-Claude Pognant**'s mythical prog rock label Crypto, *Chrysalide* is a fusion of minimalist meditations, cosmic soundscapes, and ambient with a human warmth, carried by a profoundly beautiful and unique use of twelve-string guitar, bass, and violon. Ideal for an introspective listening experience, the hypnotic Kosmische Musik of Michel Moulinié belongs to the same psychedelic family as **Manuel Göttsching**'s *Inventions For Electric Guitar*, **Mike Oldfield**'s *Tubular Bells*, early **Tangerine Dream**, and **Steve Hillage**'s creative guitar mastery. WRWTFWW listeners will also be reminded of the label's seminal French release, **Dominique Guio**'s *L'Univers de la Mer*, which makes a great pairing with *Chrysalide*.
