DESCRIPTION

WRWTFWW Records presents a new collaborative album between Polish producer, multi-instrumentalist and sound engineer **Albert Karch** (notably known for his superb 2019 album *Celestially Light* featuring **Ichiko Aoba**) and Irish ambient master and label's favorite **Gareth Quinn Redmond**. The six-track LP comes as a limited edition of 300 copies worldwide with an artwork by Dublin artist **Barry Gibbons** and liner notes. It is available in digital format as well. Recorded in at Albert Karch's studio in Warsaw in January 2023, *Warszawa* is conceptually rooted in the reason the two artists met in the first place: the work of Japanese composer **Satoshi Ashikawa**, who sought to compose a time that was stationary. Sparse in approach but sharp with intention, the six pieces of the collaborative album were sculpted with precise and floating use of piano, drums, synthesizers, and strings. The result is gentle but emotionally deep minimalistic ambient, reassuring environmental music with an indescribable **Mark Hollis** touch, also an artist whose work influenced the recording sessions. Gareth Quinn Redmond's previous albums, *Laistigh Den Ghleo*, another ode to the work of Satoshi Ashikawa, *Umcheol*, mixing ambient with traditional Irish music instruments. *Warszawa* by Albert Karch and Gareth Quinn Redmond is dedicated to the memory of Satoshi Ashikawa. For fans of ambient, minimalism, environmental, Satoshi Ashikawa, Mark Hollis, **Erik Satie**, **Midori Takada**, piano, synth, quiet Winter nights in a warm place, with a friend, or two. Limited edition of 300.
