DESCRIPTION

Rødhåd presents: *Crimson Rubeus*, the first ever compilation on WSNWG. Under the leitmotif "WE SEE NEW WORLDS GROWING," the release marks a progression for the imprint to open up for solo releases from new artists and long-term collaborators. The compilation features eight tracks handpicked by Rødhåd, each characterized by a vigorous commitment to the dancefloor while staying true to the label's signature – hard-to-resist sound with a pinch of mystery. While every contribution has its distinct magnetic pull, marking the way to a nascent world, the crimson red thread running through this compilation is perpetuating, swirling techno with an acute fit for the dancefloor. As with previous releases Rødhåd crafted the artwork for the compilation, this time drenched in crimson hues echoing the energy of the music. Featuring **Uväll**, **Arkan**, **Inox Trax**, **Nastia Reigel**, **SAMA**, **UFO95**, **Ø [Phase]**, and **Kameliia**.
