DESCRIPTION

Never say never! Because it's time for *Turmoil* – a surprising landmark album comeback for **Rico Puestel** defining a musical and personal turning point with a completely new and re-invented artistry. About time! "4U" opens the Pandora's Box of *Turmoil* with inimitable meditative beauty, descending into the metaphorical and tonal "Slices Of Life" that unleashes a complex chain of energy while "Where to" even overcomes this high voltage setup with a deadly infective loop and the only reminiscences of something to call techno on this album in its fading conclusion. Before "Heart Of Gold" defines the probably most immersive peak on *Turmoil* with its vast soundscape and mantra-like piano shuffle, "Questions" floats in dubstep'ish ways to actually raise two questions to the listener while this train keeps on going. "Five Signs" speeds up the pace on the album's second half, culminating in the mesmerizingly driven groove and words of "High Hope" and the powerful upbeat drenched into ambient soundscapes on "Newton." Nearing the end of *Turmoil*, "Dumb" delivers the longest vocal verses on this album and proceeds with the most pervasive and powerful layers of beats, violins and synth stabs. Closing and re-starting all of it, "Everending" grooves into infinity with its yoga-like theme and spreads some true love. Without a doubt, *Turmoil* happens to be the most accomplished work by Rico Puestel melting so many of his artistic worlds into one unique piece of art!
