## DESCRIPTION

**Osunlade** returns with yet another full length, *MOSS*. This one recorded during the head of the Covid 19 lock down. With a sensibility of not knowing how to react, the studio became the voice of choice in understanding and omitting the fears and negative of the unknown. *MOSS* unlike the three other full-length projects produced during this time, is a simple track affair, something for the DJs and those aspiring. Tunes to rock in your sets and/or use as elemental figures for your accapella desires. Either way, this is a simple gesture of the groove and how simplicity rules. Done completely on an iPad with no other gear, this is proof that it's not the tool but the mind. 180 gram vinyl; green vinyl with brown sprinkles; includes download code.
